Title
A Great Work

Abstract
A great work by a great person.

Does this project involve human subjects?
No.

Does this project involve live animals?
No.

Is there any Intellectual Property (IP) associated with this project (potential patent, copyright or trademark applications)?
No.

EDIT SUBMISSION

Poster Must Reflect Approved Abstract

- Make sure poster reflects what is in the approved abstract. Use abstract here as guide.
 - Proper capitalization of title
 - Primary mentor name, don't add titles (Dr., Professor, PhD, MD here please)
 - Correct subject category (this is NOT RISE category – view abstract)
 - Either undergraduate or graduate. DELETE the alternative.

Upload PPTX and PDF

5 / RISE 2023 Help

Check this box to give us permission to publish your abstract and poster on electronically and in hardcopy if accepted for presentation.

Presenter approval (read-only)

I confirm that this submission has been approved by all presenters.

In-person or Virtual Participation (read-only)

In-person RISE.

Poster Upload in PowerPoint Format*

Please upload an original copy of the poster in PowerPoint format here.

Please use the following to name your file: SUBMISSIONID#_LASTNAME_FIRSTNAME.pptx, example, 114_lacono_Jonna.pptx

Use the primary presenter name.

No response to required question

Poster Upload as PDF*

Please upload a 1-page pdf file of your poster to include in the poster gallery. The poster can only be a .pdf file.

Export the pptx file to PDF.

Please use the following to name your file: SUBMISSIONID#_LASTNAME_FIRSTNAME.pdf, example, 114_lacono_Jonna.PDF

Use the primary presenter name.

No response to required question

The Poster

You must use the provided template

Add relevant information from abstract to top portion of template.

Do NOT alter the formatting on the top of the template otherwise.

Follow guidelines in template and on the RISE site.

The Template

RISE RESEARCH INNOVATION SCHOLARSHIP ENTREPRENEURSHIP

Submission ID:
Mentor Name:
Category:
Undergraduate/Graduate

Project Title
Authors, Primary First

Background, Motivation, and Goals

- Introduce core challenge or project aim
- Explain interest and importance
- Goal or Aim

Process and Methods

- Approach to the question or problem

Findings and Products

- Share what you discovered or created

Conclusion and Next Steps

- Describes importance of your findings, in your field and broadly
- What's next for the project and for you

Callout Box 1 (Blue): Do NOT change font or other elements of the top bar of the template here. Add only information from approved abstract.
• Submission ID
• Primary Mentor Name (only 1, from abstract, no titles or honorifics)
• Subject category
• Undergraduate / Graduate Status (delete one)
Delete this box once complete.

Callout Box 2 (Orange): Remember:
• We suggest quadrant format but you can use alternate forms.
• The poster is a prop to engage people in conversation.
• Use images/figures to spur conversation and make them easy to see at a distance.
• Use text sparingly and make sure it is large enough to see. Use headers, bullet points, larger fonts.
Delete this box once complete.

Callout Box 3 (Green): You can add acknowledgements here if you wish.
If your project was funded by an Undergraduate Research and Fellowships PEAK Experiences Award, please indicate that in your poster.
Delete this box once complete.

Creating an Engaging Poster

- Recommend quadrants, but you can do whatever deem appropriate.
- Remember, RISE is for an educated but general audience!
 - You want to be able to use your poster to discuss your project both with those who know nothing about your work – and with those who know a lot.
 - Your poster should be accessible to those who are educated, but might not have a lot of background, first and foremost. Then, include elements that you can point to to deepen the conversation with those who may have more background knowledge.
 - Most important to communicate what you are doing and why it matters. Don't jump right into too technical a discussion.
- No WALLS OF TEXT.
- Use images and figures that will guide you and an audience through a conversation – and open doors to more conversation.
- The goal is to have signposts about important parts of your project – not to detail every element.
- Lots of examples of previous posters from RISE in libraries digital repository.
- Review with your mentor.
- Proofread.
